

HOOF+ WITH PROBIOTICS

1Equine Hoof+ is a highly palatable pellet supplement designed to maximise the bioavailability of vitamins, minerals, and additional nutrients to support hoof, coat, and joint health. The carefully selected probiotics support gut health and are essential for hoof health. This product may assist with hoof integrity, reducing joint and cartilage inflammation, and skin and coat health.

KEY BENEFITS

HOOF CARE

The high inclusion of Silica can assist in delivering essential vitamins and nutrients to promote healthy strong hoof growth and maintenance.

HEALTHY COAT

Improves skin and coat health through collagen formation from the inclusion of essential minerals.

JOINT CARE

The inclusion of MSM and Glucosamine helps to reduce joint inflammation and support joint mobility.
